

# Daniel Stocker

# Curriculum Vitae

## Personal Statement

**Technology has always been at the heart of what I do.** *It is a force for change and improvement, if only we apply it in the right situation.*

I started writing code when I was eight, and have been looking for new challenges ever since.

With whatever I do, I want to ensure that I can help people to achieve more with technology. Enabling other people's success is what makes me successful.
